DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art does not show a steering system as recited in claim 1, and as applicable to the dependent claims, which includes at least two steered wheels, two axles, each axle driven by a hydraulic motor via a differential unit, the steered wheels connected, for steering control, to a cylinder-piston unit fed by a known/usual power steering device, wherein the hydraulic motor of at least one axle is of a variable piston displacement type including piston displacement adjustment means governed by the position of the cylinder of the cylinder-piston unit which controls the steering.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reed teaches a hydromechanical steering transmission. Chichester et al. teaches a hydrostatic propulsion system. Paul et al. teaches a hydraulic drive and steering system. Bromley et al. teaches a speed change apparatus.
